VOL. 9. NO. 50.

MOKENA, ILLINOIS. FRIDAY, AUGUST 17, 1928.

\$1.50 per year in advance

TRY TO CLEAN HOUSE WITH BAT AND IS ARRESTED

Geo. Lauffer of Blue Island caused quite a furore last Sunday when he called at the home of his divorced wife, Mrs. Florence Lauffer in Mokena and threatened to kill members of her family.

According to the story Lauffer entered the home while Mrs. Lauffer was entertaining guests at dinner. He carried a baseball bat wrapped up in a paper and tried to use it on some of the guests, but was over-powered and beaten himself. In the melee he reached for his hip pocket and it was feared he had a gun, but it was an ice pick he was carrying. The pick fell on the floor and Lauffer had no chance to pick it up to use it.

On Monday Mrs. Lauffer swore out a warrant for his arrest in the court of Judge John F. Schultz of Mokena, charging Lauffer with disturbing the peace and threatening to kill. Deputy Sheriff Wm. Knippel served the warrant on Lauffer at his place of employment at the George Roll plant in Blue Island and brought him before Judge Schultz who placed him under \$500 bonds. The case has been set for hearing at the Mokena village hall, Friday afternoon of this week at 4 o'clock. Attorney A. H. Krusemark will represent Lauffer and Attorney Frank Brummund is counsel for Mrs. Lauffer.

Rev. Frank Sheets Passes Away

Funeral services were held Wednesday at 2 o'clock in Oregon, Ill., for the Rev. F. H. Sheets, 69, of 1930 Sheridan road, Evanston. For twenty-five years the deceased was a member of the national board of foreign missions of the Methodist Church. He died following an operation in Dixon, Ill., last Saturday.

The Rev. Mr. Sheets, after his graduation from Northwestern university, was pastor of churches at Oregon, his birthplace; Sterling, Dixon, Blue Island, Joliet, Rockford and Grace church Chicago. He was district superintendent of the Chicago western district before he became assistant secretary of the national mission board. He is survived by his widow, Emily Thompson Sheets, and a son, F. H. Sheets, Jr.

Assessed Valuation Is \$316,596

The assessed valuation of the village of Mokena and how much of a bond issue could be raised on such valuation, is a question which the tax payers have been asking, and no one seemed to be able to give the answer. In order that the tax payers of Mokena may have this desired information, the News-Bulletin has taken up the matter with the Will County Clerk's office and has secured the following authentic information:

The total assessed valuation of the village of Mokena is \$316,596 and on this valuation a bond issue of approximately \$7,500 could be raised based on a rate of two and one-half per cent.

Two Political Speeches of Note

This week this paper carries two interesting news features, namely the high lights of Herbert Hoover's acceptance speech and also the address of Louis L. Emmerson made at Mt. Vernon, Illinois Wednesday of this week. The great campaign for national and state offices is now on. Voters should give good sober thought to all the issues and vote intelligently on November 6.

The articles referred to appear on pages four and five in this issue.

Frankfort Boys On Iowa Trip

Word comes from Bert Larson and Eloy Nordstrom of Frankfort, that they are in Shenandoah, Iowa, about 500 miles west of here, where the tall corn grows. They are having a fine trip and had no flat tires or other auto trouble any of the way. They went thru about 60 miles of mud, which consisted of dirt mixed with water. Sand is used for gravel the boys report and says it's a fine country except for the roads. It is also very hilly.

Will Dedicate New Lenox Boy Scout Cabin Sunday

This coming Sunday, August 19 will be a very important day for New Lenox as on that date the Boy Scout Cabin located in the Camp Meeting Grounds in the village is to be dedicated. The public spirited men of New Lenox have been donating their time, labor and materials to erect this cabin which means a great deal for the boys of the community. The Western Union Pole Yards south of New Lenox donated the telephone poles used for logs and also donated the creosote used to preserve the wood.

The cabin is large and roomy, has electric lights and a cherry fire place. It will be used all the year around. It is a credit to New Lenox to see how they are taking an interest in the youth of their community. In addition to the Boy Scouts are the Boy Rangers and the Camp Fire Girls. It is said that New Lenox is doing more work for its young people than any other town of its size in the state.

The general public is cordially invited to attend the dedication services which will start at 3 p. m., standard time Sunday. Following is the program:

Song, America; Music, Members Joliet Grade Schools Band; Solo, Everett Maina; Duet, Mr. and Mrs. George C. Petersen; Dedication Prayer; Music, Members Joliet Grade Schools Band; Address by H. H. Hughes, Scout Executive Will County Council; Song by Camp Fire Girls; Cabin Presentation by A. Swanson, Chairman Local Troop Committee; Dedication Service by Rev. Ernest C. Lumsden, D. D.; Solo, Frank Marquet; Flag Raising Ceremony, Boy Scouts; Scout Benediction.

Former Mokena Residents Celebrate 60th Anniversary

August 9th marked the sixtieth anniversary of the wedding of Lorin N. and Mary A. Moulton former residents of Mokena.

On Sunday, the family motored out to Mokena from Chicago to enjoy a family gathering with friends and relatives. Thirty-one guests were present.

Mr. Moulton is one of the Civil war heroes of whom the song "Marching Through Georgia" was written because he was one of the "Boys in Blue" who made the historic march through Georgia.

When the Civil war started Mr. Moulton was 18 years of age, and he was one of the first to join the campaign against the south. For hours at a time he will sit recounting the happenings of Civil war days and how Chicago looked when he first remembers it, which was many years ago, for he was born in Chicago in 1847 and has lived there practically all his life.

Before celebrating their anniversary in Mokena last Sunday, Mr. and Mrs. Moulton received a few calls from relatives and friends, reserving their energies for last Sunday when they motored to Mokena and spent the day in the vicinity of the old M. E. parsonage, still standing, where they were married on the afternoon of August 9, 1868.

Mrs. Mary B. Moriarty now owns and lives in the old parsonage.

Relatives and friends took part in the excursion, but the journey out took but an hour or so instead of the day occupied when Mr. and Mrs. Moulton were married, for horses have been replaced by auto mobiles.

Mr. and Mrs. Moulton reside at 7303 Luella avenue. They have four children, Chas. N., Arthur H.; Roy L., and Mrs. Croskey, all of Chicago, ten grand children and five great-grand children. Mr. Moulton is 81 years old.

F. M. Story Wins Car At Picnic

The largest picnic that the St. John Evangelical church of Mokena has ever had, was the one held in the Cappel Grove south of Mokena last Sunday. The proceeds went over the \$2,000 mark. Over 600 persons were served at supper. A Masonic band from Joliet furnished the music. This was the first Sunday picnic which this congregation has ever given.

The big feature was the awarding of a fine new Whippet coach automobile which went to F. M. Story. He was greatly surprised and his many friends congratulate him.

PICTORIAL LIFE OF HERBERT HOOVER

No. 2

By Satterfield

1. Herbert Hoover's father, settling in Iowa, wrestled a hard-earned living from the soil as a pioneer farmer.

2. His natural bent for machinery asserted itself, and he opened a blacksmith shop, and sold farm machinery.

3. Grandfather Minthorn, on his mother's side, was a bookish farmer, who used to read as he rode horseback.

4. Hoover's mother was a great reader and a serious-minded critic of such literature as reached the farm.

Property Owners Opposed to Water Main Extension

The proposed water main extension into the McIntosh sub-division north of Mokena at an estimated cost of \$21,000 was bitterly opposed at the public hearing held in the public school last Thursday evening.

It was brought out that a petition signed by some of the property owners in the sub-division asking the village board to extend the water out there was presented by Mr. Berg to the village council and on the strength of the petition the Local Board of Improvements went ahead and had the village engineers prepare maps and an estimate of the proposed improvement.

A number of owners of lots in the sub-division claimed they never saw the petition and had not signed it. When the question arose as to where the petition was, and who had signed it, no one seemed to know what had become of it. This was the beginning of the opposition. It was further contended that the petition was not signed by all the property owners in the sub-division and did not convey the wishes of all the property owners in the matter. The cost was considered excessive. When the matter was finally put to a vote 90 per cent of the owners were opposed to the proposed improvement. The matter will be considered again by the Local Board of Improvements at their next meeting the last Wednesday in this month.

Charles L. Thompson of Hazel Crest who owns a number of lots in the sub-division referred to above, took up the matter of the proposed zoning ordinance and declared that the Local Board of Improvements would make a serious mistake if they did not zone Wolf Road for business all the way thru the sub-division. He pointed out that Wolf Road is a main arterial highway running from Kankakee thru to Wheeling and crosses all roads entering Chicago and is partly paved at the north end and more paving is being done so that it will not be long before the highway will be created all the way. He showed that by zoning this road for business it will bring valuable business to this vicinity which in turn will bring increased revenue from taxes to the village treasury and enable the village to do things they otherwise could not do on account of lack of money.

Mr. Thompson compared Wolf Road with Sibley Boulevard and Western avenue showing these thoroughfares are all zoned for business and as a result the cities and towns they pass thru are thriving. Mr. Thompson also predicted that the Rock Island railroad would be electrified within the next ten years from Chicago to Joliet and in that event it would mean that Mokena would have the same chance for development that Homewood has had with the electrification of the Illinois Central.

Mr. Thompson predicted a future for Mokena but said that all future development will be along Wolf Road and to the north of Mokena and that now is the time to prepare for the future welfare of the community. He said he had no selfish motive in view by advocating that Wolf Road be zoned for business all the way, but that such zoning would benefit the entire community.

The zoning commission appointed by Mayor Hacker at the last board meeting has not made any recommendations as yet it is said. A petition has been circulated and signed asking the zoning committee to zone Wolf Road for business purposes all the way thru the incorporate limits of the village of Mokena.

A hearing date on the proposed water main improvement in the old part of the village of Mokena at an estimated cost of \$32,000 was to have been set last Thursday night, but after the hearing was over no action was taken so no date for a hearing on this proposition has been set.

A hearing date on the proposed water main improvement in the old part of the village of Mokena at an estimated cost of \$32,000 was to have been set last Thursday night, but after the hearing was over no action was taken so no date for a hearing on this proposition has been set.

Pittsburgh Couple Married on Vacation

The past week, Mrs. Ferdinand Tonn entertained her only brother, Mr. Gottlieb Kelm, aged 73 years, his wife and two daughters, Viola and Dorothy, and son Karl, from Pittsburgh, Penn. They made the trip by auto. Accompanying them was Miss Blanch Egbert, fiancée of Karl. Last Wednesday Karl Kelm and Miss Egbert were united in marriage by the Rev. Mr. Weishaar at the Frankfort Methodist parsonage. A lovely wedding dinner was served at the home of Mrs. Egbert Gillette of Marley, daughter of Mrs. Tonn. The latter had not seen her brother for 27 years, and the reunion and recollections of by-gone days were greatly enjoyed. Mr. Kelm and family left Saturday for Pittsburgh.

SPECIAL MEETING

A special meeting of the Mokena Development Association will be held on the lawn of L. G. Bruder, Monday, August 20. All members urged to attend.

THE WEATHER.

Friday August 17, hot; 18, hot; 22, milder; 23, pleasant.

TINLEY MAY SEEK FREE PUBLIC GOLF COURSE

A free public golf course in the forest preserve adjacent to Tinley Park was advocated by John G. Poorman at the Tinley Lions Club meeting Monday night. Mr. Poorman said he had read an article recently which said that the Cook County Forest Preserve Commission is inviting suggestions from the public as to how they can improve Forest Preserve property so as to make it of more use to the public. As all golf courses in this section are private, Mr. Poorman thought it would be a good idea if the Forest Preserve Commission would be petitioned to establish a free public golf course on the old Smith farm four miles northeast of Tinley in the Forest Preserve. This old farm consists of 240 acres and would be ideally situated.

The Club decided to invite the mayors and aldermen of Midlothian, Homewood, Flossmoor, Posen, Orland Park and the Lions Club of Blue Island to the next meeting of the Tinley Lions Club a week from next Monday night to consider the matter and get up petitions and circulate same for signatures in the surrounding territory and after securing the necessary names present the matter to the Forest Preserve Commission.

Report 1 Killed In Mystery Accident

A mystery accident occurred early Sunday morning on the Lincoln Highway near the Waldvogel farm east of Frankfort. It is reported that a car was crowded off the highway and struck a bridge railing and was upset in the ditch killing one man and injuring three other persons.

A bus is said to have picked them up and taken them to Joliet, but who the people were has not been learned. The wrecked car is said to have been from LaSalle.

County Bond Issue Looks Favorable

The much discussed Will County bond issue for paving highways in the county may come up before the Board of Supervisors at their meeting the forepart of next month. It is said that the majority of the board members are in favor of the proposition. The committee who are in charge of the measure have submitted their map of the highways to be improved to the state highway department for their approval. It is said that the plan calls for a bond issue of \$1,750,000 to build 53 miles of paving in the county. Wolf Road it is said, will be one of the first roads to be paved under this bond issue, so as to provide a hook-up from the paving at the Cook-Will county line north of Mokena south thru Mokena to the Lincoln highway.

Seeks Action On Wolf Road Paving

Both candidates for governor have been asked what attitude they will take on the concrete road matter of the state and both have agreed to carry on policies that will make for effective road building and that will take such road construction out of politics. In view of this, L. G. Bruder, president of the Mokena Development and Hard Road Improvement Association has written the following letters regarding the paving of Wolf Road thru this immediate vicinity:

Chicago, Illinois.
August 13, 1928.

The Hon. L. L. Emmerson,
State Capitol,
Springfield, Illinois.

Hon. Dear Sir:
The Incorporated Village of Mokena and vicinity has been very

The RETURN of ANTHONY TRENT

COPYRIGHT BY BARS & HOPKINS

WNU SERVICE

CHAPTER IX—Continued

At the ferry, Weems voiced his desires to get out again to the coast to make pictures. Fort Lee, he said, was dead. Nothing doing in the East. In the West one could work outside all the year, and his comedies were to be all exteriors. Ere the Fort Lee bill was ascended, Trent was offered the chance of becoming one of the leaders of the film industry. Weems proved it on the back of an envelope he had wrung from the reluctant Hubbard, who carefully removed the contents before he parted with it. It was difficult to judge from the back of his prospector's head just what effect his eloquence engendered.

"For the love of Mike," he said, as Trent passed David More's little store, "say something."

"I'll think it over," he was told. "To begin with, I'd like to see how pictures are made."

Weems took this as encouragement. "You shall see everything the studio has to show," he declared. "They know me."

Weems was disappointed that Trent decided not to permit wholesale presentations. Weems grumbled about it to the girls.

"I'd have introduced him to all the big ones, whether I know 'em or not. I don't get him at all. He seems more interested in the mechanics of the game than the other parts," Weems added. "Look at him, will you?"

Trent was asking questions of a technical director when he could have talked with a star!

"He must have money," said the lead a little wistfully. Look, Horace, the studio manager is talking to him now."

"I had to tell the old grafter I'd got new money in," Weems said a trifle apprehensive as to his immediate future. "That release is bound to come, and then I can pay up everything. If they crowd me too much they'll lose it all."

"So will you and me," said the lady soberly.

The studio manager merely said that if Mr. Trent had an interest in the Horace Weems Productions, would he be responsible for their financial indebtedness?

"I will not," Trent said concisely. "To begin with, Mr. Weems has stated that the company has all assets and no liabilities."

"He's behind on last week's studio rental. Here's the statement."

Trent looked over the items. He was no more anxious than another man to waste his money, but he accompanied the manager to his office and paid the accounts. He did not give the money because he felt any responsibility for Weems, and he did not aim at production. He was willing to settle the bill because he had certain definite knowledge to acquire and had given himself a week to get it in.

"I'm going down to the village," Trent told Weems. "I shall be back in half an hour."

David More was finishing a story in a magazine devoted to tight fiction when Anthony Trent came in. He had read of the Deal Beach exploits, and was peculiarly interested. He thought he understood now why his client had been so anxious to learn the details he had been set to gather.

"Here's another commission," Trent said in the security of a small parlor at the rear. I want to rent for as short a term as possible a house with large grounds running down to the Hudson. I don't care what sort of repair the house is in or what you have to pay. There's a place I have in mind somewhere north of Ossining which was empty when I passed through the town last. It's the kind of rundown estate not modern enough to attract the rich commuter and too expensive for middle-class purses to keep up. Here's some money for a deposit if necessary. I'll come and sign a lease when you've got a few to select from. Remember that I must have grounds that are not overlooked. Also I must have an uninterrupted view of the river."

When Trent saw Weems again he looked upon a different man. Now that the embargo was removed, Horace was feverishly finishing a comedy.

"What picture is being made over there?" Trent asked.

"A six-reel special," Weems returned. "A crook story. Go and take a peek."

The studio manager introduced Trent to the director and stars and answered his many questions.

When Trent got back to the Van Boden apartment he was possessed of a vast amount of information. He was having to pay for it, but the price would be cheap if the end he sought were attained.

Later in the evening he called up Mrs. Kinney, spoke a little to Sutton and then talked to Mademoiselle Dupin.

"You haven't forgotten tomorrow, I hope."

"Not for a moment," she returned. "I shall be waiting at nine. It seems a shame we cannot bring poor Captain X." The names of the immured were never mentioned. "Would it not be possible?"

"It would be far too dangerous."

While this was true, Anthony Trent could not conceal from himself that he did not want a third person on the trip. Sutton was already fortunate in having Mademoiselle so close at hand.

CHAPTER X

Confessions

Trent was conscious of a certain restraint between him and Mademoiselle Dupin during the first few miles of the journey. She had made up her mind that she would not add to the many obligations she was under. And yet to broach the subject seemed ungracious. But at the apartment they were so rarely alone that here, aboard, was the only opportunity.

For his part, Anthony Trent was thinking how little he knew of this beautiful and accomplished woman

Late in the Evening He Called Up Mrs. Kinney.

and how much more he desired to learn. What, he wondered, was her early history?

The launch was a fast one, and soon overhauled a liner going through the harbor shipping at half speed.

"It's the Brabant," he exclaimed, and told the steersman to go as close to her as he could.

"I came over in her," Trent told the girl at his side, "and met a very decent sort of purser aboard. I've an idea I can use him if he is still there."

She should be back here in exactly twenty days. I had a fearful quarter of an hour on that staunch ship when I left Dover." He told her of his interview with the inquiring purser.

"The tragedy with people like us," she said gravely, "is that there must always be the fear of such interviews."

"I know," he answered, a little gloomily. "That very thought is never far away from me. I can never be certain that some one hasn't devoted just as much thought to getting me as I have given to evading capture. I mistrust people on whom I ought to rely. I am invariably looking for motives. Sometimes I think I have slain the ability to enjoy people."

"Am I not to be trusted?" she asked.

"You are different," he answered. "You can understand because you have suffered too. That is why you and I should always be good friends. I know you will never go back to the

old life. Yet how many men who have lived better lives than I could you convince? Collective prejudices send innumerable men back to the crime they want to escape."

"Didn't you enjoy the Grant house party?" she asked, after a silence.

"Not at first. In the beginning I felt every man was watching me suspiciously."

"We pay," she sighed, "whether in prison or out of it."

"All this isn't very cheerful, is it?" he returned. "I suggested this trip to keep you in good spirits, and we both drift into morbid moods."

He reached for his glasses.

"What do you see?" she asked.

"The good ship La Belle Alliance in the offing."

A number of small craft passed and repassed the stranded vessel. She lay pathetically on her side, a mass of rusty red and faded black. Apparently none of the Grant household was on the private beach.

"I wonder if Mrs. Grant will let me go back," said Mademoiselle Dupin when the launch was headed for home.

"Surely you don't want to go back?" he cried.

"Why not?" she answered. "I cannot remain where I am any longer. I shall never cease to be grateful for what you have done. Some day I may be able to repay you. I can never forget what you rescued me from. But you must see I cannot be a burden to you any longer."

"Burden!" he scoffed. "That is absurd." Nevertheless he saw that nothing would alter her. "If you must go I cannot hold you back, but please don't go back to Deal yet. That might upset my plans and bring suspicion on you. Do me this favor. Stay on with Mrs. Kinney until my scheme for Sutton succeeds or fails. You are putting me under obligations. He was morose and gloomy till you went there, and I want him at his best. Don't go back on me now," he pleaded.

"If I can believe I am helping you it is different," she said, "but I only suspect more of your generosity."

"Sometimes you have looked at me," she said, "as though you wanted to know about my past. I have felt it as strongly as if you had spoken."

"You cannot imagine how much I have wanted to know," he returned. "but I haven't any right to ask."

"I think I should like you to know. My father was Russian and my mother French. They died when I was quite young. For years I was at a convent in Paris. My guardian was a Colonel Ogilvie, who had been for a time in the Russian service with my father. There was very little money left from the estate. My father was suspected of liberal tendencies and his lands confiscated. Yet when I joined Colonel Ogilvie and his friend Count von Schonbrunn in Cannes, it was given out I was an heiress. I was not yet eighteen. They took a splendid house for me, which was in reality a gambling establishment, although I did not know it. There is much money among the visitors to Cannes, Nice and Pau, and there was a vast profit in the house. The police broke up the establishment at Cannes. So we moved to Nice, where there was a scandal about crooked play. And so on in other cities. You may believe me or not, but I was kept in ignorance of this I was convent-bred and had been taught obedience to my guardian. I married Count de Beaulieu before I was twenty. He thought I was an heiress, and my guardian and Von Schonbrunn thought he was the head of the rich branch of his family. Instead, he had nothing. When it all came to light, he left me. I had news of his death while you were staying in Old Westbury."

"I remember," Trent said. It was this death which had seemed to clear the way for her marriage to Captain Monmouth, the man who had repudiated her so strangely.

"After he left me, and I found out what sort of a man my guardian was I joined the rest of them, knowing full well their way of life. I think I wanted to avenge myself on all men I was in London for a season and then came here. You know what I was here. That is all."

Her story was very much what Trent had imagined it to be. Certainly she had more excuse for her career than he had for his. He believed her wholly when she said she had been for so long in ignorance of the men surrounding her.

"Are there any people over here, men and women with whom you were associated in the Riviera, who might recognize you?"

(TO BE CONTINUED.)

Napoleon's Task Not Finished Until 1918

When the great cathedral of Notre Dame was alight with 10,000 softly waving candle flames and while a pope, brought from Rome to Paris, was preparing, in the presence of the most august assemblage that Europe could gather, to place an emperor's crown on Napoleon's head, Napoleon turned and whispered to his brother, "What would father say if he could see me now?" And the next moment, when the pope was ready to crown him, Napoleon firmly removed the emblem from the papal hands and placed the crown upon his own brow.

Kings and emperors are not born; you can make as great a king by artificial processes, provided you've got a brain under the crown, says W. G. Shepherd, in the Monitor. Born kings make trouble; made kings are just as good as born kings; probably better.

That's what Napoleon kept arguing and trying to prove all his life. This contention made the born kings angry. The anger drove them together. They finally whipped Napoleon and sent him to St. Helena. He couldn't whip the born kings. He tried that 100 years too soon. The world didn't whip the divine-right born kings until 1918. I wonder if Napoleon knows that we polished off the job he tried to do.

Noise Costs Money

Estimates place the cost of noise in the United States at \$10,000,000 a week. The loss is due to inefficiency on the part of workers who can't concentrate in noisy places.

A baby understands a great deal more than you think.

Humble Toad Classed as Friend of Farmer

The lowly toad is of great value to the farmer, according to the Department of Agriculture. The eating habits of toads give them an important place in nature, says a statement by Remington Kellogg, of the bureau of biological survey. Although they are indiscriminate in their appetites, the obnoxious insects eaten by the toads more than compensate for the harm done by preying on those that are beneficial.

Toads are great gourmands, and in the course of a season eat untold numbers of insects, many of which are highly destructive to plant life. Large numbers of crop pests are destroyed by the toads. Meal time with toads often begins before sunset and continues throughout the greater part of the night; hence the food contains a mixture of diurnal and nocturnal organisms. In their night warfare on insects the toads take the place of the ground-fed insectivorous birds after these have ceased their activities for the day.

It Didn't Work

In a certain Indiana rural school, the teacher noticed that one youngster was not paying very close attention so she decided to catch him. She asked him which part of the story that they had just read he liked best. He studied a moment and said: "The part that Mary just told."

The teacher was not to be outdone and told him the class could listen to it again. "Well," he said, hesitatingly, "I don't know. I didn't hear what Mary said."

Got Off Lightly

When Elfrida Shryrock, two-year-old daughter of Leonard Shryrock, of Compton, Cal., opened the door of her father's car while it was traveling forty-nine miles an hour, she was thrown to the pavement and rolled sixty feet. Brought to a hospital, the child proved to have suffered no injury other than numerous bruises and cuts.

Pledge of Affection

He—Still love me?
She—Yes.
He—How much?
She—Bushels.
He—Then, say honey, couldn't I keep six bits out of my salary this week?

You Tell 'Em

George—It isn't the amount of money that a fellow's father has that counts here at college.

Gene—No, it's the amount of the father's money the son has.

Well water should never be unhealthful.

American Demand for Reindeer Meat Grows

Sale of Alaskan reindeer meat to American meat-eaters in increasing quantities is reported by the Interior department. Several thousand carcasses are brought into the country every year, and the meat may be bought almost anywhere in the Northwest, and occasionally is found on eastern bills of fare. One Nome (Alaska) company, recently reorganized with a \$3,000,000 capital, owns 50,000 head, and devotes all its attention to exporting meat. There are about 500,000 reindeer in Alaska, of which the Eskimos own about two-thirds. The reindeer industry is one of Alaska's greatest.

"Gold Star Mothers"

There seems to be no official interpretation of the term "gold star mother." The Gold Star Mothers' association defines such a mother as one whose son was killed overseas during the World war or who was killed on the sea while serving in the war. The American War Mothers' association defines a gold star mother as one whose son has died between the dates of April 6, 1917, and November 11, 1920, from wounds or disability incurred in service during the war.

Hybrid Triumph

What is regarded as an achievement in plant breeding has just been accomplished in the production of a cross between a cabbage and a radish, says the Popular Mechanics' Magazine. The two are of remote relationship, hence the hybrid is considered far more remarkable than those yielded by crossing varieties that more closely resemble each other.

Family Agreement

"And how do you get on with your wife?"

"I've a splendid working arrangement with her. In the forenoon she does what she wants and in the afternoon I do what she wants."—Dublin Opinion.

A New Disease

Teacher—Now, Johnny, can you tell me what wisdom is?

Small Johnny—Yes, ma'am. It's information of the brain.

With a Spoon

The Novice—Golf is pie for me.
The Pro—I notice you're good on the slices.

Nearly every newly married woman thinks that a lot of other women envy her.

About the only way to endure noise is to join in it.

Coins Valuable Only to the Numismatist

Coins and currency once valued at millions of dollars make up the collection of Cere C. Standford, of Gregory, S. D. The currency is worthless now, except to collectors. The most valuable piece in the collection was taken from ruins at Pompeii. One piece of Austrian currency, worth at one time \$500,000, is in the collection. In United States gold coins, Standford has \$2 and 50 cents in single pieces, a 50-cent and 25-cent gold coin. He has United States paper money in 50-cent, 10-cent, 25-cent and 5-cent denominations. A silver piece in the collection is one of three peace medals given by the United States to Indian chiefs in 1871. He has an Egyptian coin with the pyramids stamped upon it. Money used in Hongkong has a Chinese emblem on one side and the English Queen Victoria on the other. Coins from the Philippines have Spanish inscriptions on one side and English on the other.

Signs in the Sky

A glorified "magic lantern," said to be capable of projecting photographs and signs on to the clouds, is the latest contribution to the science of advertising.

The device, still in its laboratory form, consists of a powerful searchlight mounted behind a series of lenses and a slide holder. The whole apparatus resembles a cannon and is able to project images for a distance of five miles on a cloud bank.

The image is visible for miles around, while a revolving screen in front of the muzzle of the projector can be used to produce color-changing effects.

Inks in Bookkeeping

The use of red ink by many banks, particularly savings banks, to note interest is simply a matter of convenience, the interest being more easily distinguished from the principal sums by being written in colored ink. Any other color preferred may be used or it is not necessary to use a different color.

Real Love

He—Are you sure you love me?
She—Boy, haven't I agreed to marry you when I know that on all the salary you'll ever make I'll spend a heap more time in kitchen aprons than in dance frocks?

The life of an American reform is usually ten years; five years to get it, and five years to get rid of it.—E. W. Howe's Monthly.

Greatest peace of mind is secured by trusting the world to take care of itself.

TILL BREAKING SALES RECORDS!

GREATEST JULY IN WILLYS-OVERLAND HISTORY

The big forward march of Willys-Overland continues!

Following the greatest six months in Willys-Overland's 20-year history, with sales exceeding the entire 1927 output, came July with far more sales than any previous July. 100% more Whippet and Willys-Knight cars were purchased than during July last year.

This success is not surprising. Whippet Fours and Sixes and the three great Willys-Knight Sixes offer a degree of comfort, performance, safety and economy never previously available at such extremely low prices.

Orders now accepted for prompt delivery.

FELT HATS ARE "SO DIFFERENT" LUGGAGE FOR CHILDREN LATEST

Some Different Felt Hats.

JUST as many felt hats as ever, but "so different." They are works of art, the milliner's art, when it comes to securing "lines" through manipulation. Seems as if each model has been studiously shaped to suit an individual type. Which of course spells becomingness for every woman in quest thereof.

Interest is divided between supple brims of the vagabond ripple-brim type and the intricately worked fitted sort. The general tendency is to frame the face, be the hat considerably brimmed or of the beret and toque genre. Actual bonnet shapes have come into fashion, taking the place of the regulation cloche. These are most becoming to youth, who wear them letting the hair show in front.

All the hats in the picture are felt and they tell the story of the newer silhouettes. Ever so many of the smartest felts are self-trimmed as shown in the two hats at the top of this group, also the one to the left.

Plaited brims are the newest thing. Milliners are making a great play on plaits, usually grouping them at the right side after the manner shown in the first hat in the accompanying collection, likewise in the model in the oval below.

The tendency to elongate the right side is very marked throughout felt stylings. The hat shown first, also the toque at the top of the picture to the

especially designed for the little folks. It seems that nowadays children have duplicated for them in miniature about everything which goes to make up the equipment of their elders. Which is an excellent thing, seeing that it cultivates in them a sense of ownership which leads to a sense of obligation and responsibility on their part which in turn develops a fine self-reliance.

Handsome and sturdy leather bags of various kinds are now appearing in the luggage shops of the land to make it possible for boys and girls to enjoy "carrying their own" when they go on a trip. This new tiny luggage simplifies many a mother's task of packing the children's clothes and encourages in the child a disposition to be orderly.

Previous to this summer about the only luggage for children was made of cardboard and was too flimsy for real service. But this season the manufacturers have taken the matter more seriously. The result is that a variety of bags and cases in all kinds of leather and in many colors have gone

Latest Wrinkle in Leather Goods.

right show latest effects of this kind. The chic little shape to the left below is all of felt even to the bow which trims it. See how intentionally it frames the face, and, as said before, this is an outstanding characteristic of the latest models.

There is a clever touch noted in the toque shown to the right and that is the fact of it being trimmed in a cluster of novelty feather flowers. They are the identical color of the hat.

The last model is fashioned according to latest vogue. First of all it has the plaited side flange and also its brim drops at the back, a most excellent thing for it to do in behalf of women who are letting their "bob" grow out. The metal belt and buckle are in exceeding good style, bespeaking what promises to be a very popular trimming for fall.

Very clever flat pasted feather brims are being introduced on some of the newest felt shapes. Fancy feather novelties will be widely featured for autumn.

And now, what next for children? Well, the latest wrinkle is luggage

into service, and what fun it is for the youngsters to "tote" them about!

Many of these little pieces are exact replicas of big luggage for elders, especially a tiny kit bag of tan cowhide with double handles, straps and buckles on it just like grownups'. It is only 14 inches long. Another piece is a fat little roll bag of calfskin colored red or blue or green with hookless fastener opening across the top which locks at one end. Then there are 12 inch hat boxes and matching tiny overnight cases in good leather of various colors and finishes; foot-long stitcases, some made of cowhide and calfskin printed to simulate alligator; little round-cornered suit bags whose lids are fastened with the now familiar sliding hookless catch; and so on. Until this year it was hard to find luggage for children except "play" bags made of paper and cardboard. These new pieces are as substantial as grownups' bags, they hold a good deal and give the children the joy of carrying their own.

JULIA BOTTOMLEY.

I find that the great thing in this world is not so much where we stand, as in what direction we are moving.—Oliver Wendell Holmes.

CULINARY KINKS

A delightful dish for luncheon or supper is prepared as follows:

Stuffed Tomatoes.—Remove the stem end from six medium-sized tomatoes. Take out the centers and most of the pulp and invert, let stand

twenty minutes. Cook three tablespoonfuls of butter with six tablespoonfuls of chopped green pepper five minutes. Add three-fourths of a cupful of soft bread crumbs, one-half cupful of the removed pulp, one-fourth teaspoonful of salt, pepper to taste and a little onion juice. Fill the tomatoes with the mixture and bake fifteen minutes.

Baked Larded Liver.—Skewer, tie and lard the upper surface of a calf's liver. Place in a baking pan and spread with the following: Cream, three tablespoonfuls of butter and add one and one-fourth teaspoonfuls of salt, one-half teaspoonful each of cloves and pepper. Pour around one-half cupful of boiling water and cook in a moderate oven one hour, basting every ten minutes. Remove to a serving dish, skim off the fat from the pan and add one cupful of orange juice and strain the sauce over the liver.

Scalloped Potatoes With Ham.—With a very small amount of cold cooked ham, sliced thin or put through the meat grinder, arrange a layer of thinly sliced potatoes, then a sprinkling of shredded onion and a layer of ham; repeat until all is used. Cover with sweet milk and put covered into a moderate oven. Bake until the potatoes are tender. Serve from the dish.

Fruit Jelly.—Soak two tablespoonfuls of granulated gelatin in one-half cupful of cold water, dissolve in one and two-thirds cupfuls of boiling water; add one cupful of sugar, one cupful of grapejuice, one-third of a cupful of orange juice, three tablespoonfuls of lemon juice, strain and mold. Chill and cut in cubes to serve as garnish.

Have a Hot Biscuit.

In summer or winter there are few things more tempting than dainty little hot biscuits. Formerly they were served only at such informal meals as luncheon, breakfast or tea, but now they have edged into even wider popularity and are frequently served at dinner, both at hotels and in private homes.

Not every cook knows that biscuits can be made, cut and placed in the tins ready for baking, and then into the ice box to wait several hours or all night, before baking. This is an especial boon for a night supper or where one has no maid and the hostess wishes to have everything ready in the morning.

Buttering the biscuits before baking is liked by many. Roll the dough rather thin, cut as usual, put a bit of butter on each and top with another biscuit. In cooking the butter melts, makes a delicious flavor and the parts separate easily.

Orange Biscuits.—When serving a fruit salad these sweet biscuits will be especially appropriate. Sift two cupfuls of flour with four teaspoonfuls of sugar, four tablespoonfuls of shortening, one tablespoonful of grated orange peel and three-fourths of a cupful of milk. Roll the biscuits and cut as usual. On top of each place a half-sized lump of domino sugar dipped in orange juice. Bake in a hot oven.

Cheese Biscuits.—Sift two cupfuls of flour with four teaspoonfuls of baking powder and one teaspoonful of salt, add two tablespoonfuls of shortening, and when well blended add three-fourths of a cupful of milk and mix to a soft dough, adding one cupful of grated cheese. Roll out one-third of an inch thick and cut with one and one-half-inch cutter. This makes two dozen small biscuits. Bake in a hot oven. When you wish extra fine biscuits use the pastry flour, it is not as economical but makes a whiter, fluffier biscuit.

Browned Cheese Crackers.—Split common crackers, spread with butter sparingly, then with grated cheese and salt with a dash of cayenne. Put in dripping pan and bake until brown.

Scotch Scones.—Take two cupfuls of flour, four teaspoonfuls of baking powder, two teaspoonfuls of sugar, one-half teaspoonful of salt, two eggs and one-half cupful of cream. Mix the dry ingredients and add four tablespoonfuls of butter; when well blended add the eggs and cream. Toss on a floured board and cut in diamonds or squares. Brush with egg, sprinkle with sugar and bake in a hot oven fifteen minutes.

Cheese Omelet.—Beat two eggs slightly, add one-half teaspoonful of melted butter, salt, cayenne to taste and one tablespoonful of grated cheese. Melt one-half tablespoonful of butter in a hot omelet pan and pour in the omelet mixture. Roll and sprinkle with grated cheese when done.

Taking home a fresh box of cigars is having a good time for a man.

The drummer's handshake is but a press of business.

Not Much Demand Now for Handmade Basket

The art of the osier, which is basket making, is one of the oldest of the handicrafts and was once a very important industry of England, but the statement is made that it will soon be exterminated unless some encouragement is given to the workers.

German and Japanese baskets are displacing the product of the other countries where the art flourished first. A great deal of labor is required to cultivate the willows and prepare them for wicker work. The willows are cut with a short curved knife in the early months of the year. They are then soaked in running water for six months. This is known as pitting the willows, and it is necessary to take off the bark to produce white willows. The finished willows are then dried and straightened, when they are ready for the hamper makers and cane workers at the factories.

Who Will Donate Peacock?

An obituary notice of a peacock, which had been a friend of the bishop of Worcester, England, and his family for some years, recently appeared in the Diocesan Gazette. The appreciation, written by the bishop, closes: "May I add that his disconsolate widow, being of the varium et mutabile sex, would, as she tells me, welcome another partner if any one has a peacock to spare."

A Wet Remark

"Is Claude still mopping floors at the hotel yet?"
"Yes, he's the same old floor flusher."

If one doesn't like a scowling forehead, one doesn't have to think scowling thoughts.

THERE is nothing that has ever taken the place of Bayer Aspirin as an antidote for pain. Safe, or physicians wouldn't use it, and endorse its use by others. Sure, or several million users would have turned to something else. But get real Bayer Aspirin (at any drugstore) with Bayer on the box, and the word genuine printed in red:

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid

If you say "No" too often, pretty soon you have nobody to say it to.

One of the earthly horrors is a sophisticated little boy, poor child.

Quick New energy

in the morning!

Breakfast time—and new energy needed after the longest fast of the day!

Post Toasties time, too, for Post Toasties is the wake-up food! Rich in energy—and quick to release that energy to the body because it's so easy to digest.

Enjoy a heaping bowlful with refreshing milk or cream. Everybody loves the crunchy goodness of the crisp, golden flakes.

Post Toasties is an ideal breakfast food for children. It supplies them with wholesome energy needed for school and play.

And so convenient! Serve Post Toasties right out of the package. Have Post Toasties every day—and get daily benefit from that rich store of energy. Try Post Toasties for lunch with fresh fruits or berries—see how satisfying and good it is!

Ask your grocer for Post Toasties—and be sure to get the genuine in the red and yellow package. It's the wake-up food! Postum Company, Inc., Battle Creek, Michigan.

MOKENA

Cooper & Hostert, local Ford dealers, received a new model four door sedan this week, which has been sold to Chas. Parsons in New Lenox.

Building operations has been begun on the Edward Martie's new home. Phillip Hacker is the carpenter in charge.

Excavation work on the new Mokena school building was started this week.

Contract has been awarded for Hy-Tex brick of which the school walls are to be built.

School starts September 4th and all school kiddies are anxious for that day to come.

Mokena P. T. A. meets in the school house next Tuesday Aug. 28.

Mr. and Mrs. Don C. Hall Jr., were in Mokena Sunday. They are playing this week in Roselawn, Ind.

August Hentsch, Mokena mail messenger, visited the United States Air mail port in Chicago last Sunday.

Mr. and Mrs. Frank Campbell, Mrs. R. Mitchell and son and Mr. and Mrs. Robt. Tromball of Chicago and Mr. and Mrs. H. Deadmore of Joliet, were guests Sunday at the Wm. Semmler home.

Mrs. Milton Krapp was called to St. Louis, Mo., Sunday by the illness of her mother.

Thrashing is under way in this territory. The oat crop is very good running from 40 bushel per acre and over. Also a large barley crop is reported. Barley is being used for cattle feed. There is a good yield of wheat.

The highway by the Edward Maue farm is being macadamized by the town of Frankfort. Free state stone is being used. Heretofore this has been a mud road.

The highway on 179th street, running by the John Stellwagon farm is being made a hard road by Cook county. This is the first time

any stone has been put on this road. This highway is being constructed from the Cooper farm west of Wolf road east to 94th Ave.

Mr. and Mrs. Geo. Knudson has returned from a vacation in Wis.

Mr. and Mrs. J. Mattes and Mr. and Mrs. A. Braun have returned from Mauston, Wis., where they have been visiting with relatives. Mokena Men's Club dance Saturday night was a record breaker, 350 tickets being sold.

Misses Adeline and Ada Semmler are spending this week in Joliet with their aunt and uncle, Mr. and Mrs. Hugh Deadmore.

Glen T. Beatty, Pastor
Morning Worship 9:15 A. M.
Church School 10:30 A. M.

Mr. Beatty will preach next Sunday morning. This will be the last morning service of this year. The following two Sundays there will be no preaching service; the pastor will take these two Sundays as his vacation period. Mr. and Mrs. Beatty do not plan a vacation trip, but will be in school until September 1st. The Sundays absence will be used for rest toward the end of a very heavy summer school session. There will be Sunday school as usual on these Sundays.

A very fine Ladies Aid meeting with Mrs. Wm. N. Lathrop is reported from last Thursday. The Ladies announce their annual bazaar for October 25th, in St. John's church parlors. They are making extensive plans.

St. John's Evangelical Church
Rev. W. J. Cramer, Pastor.

Sunday School 9:30 A. M.
Morning Worship 10:30 A. M.
A cordial invitation is extended to all. The pastor will preach a sermon on Peter's fishing trip. Come and hear this sermon.

The pastor and his family, also six Sunday school workers attended the Monee Circuit Sunday school convention. The convention was largely attended.

The pastor and family attended the funeral service of Mrs. Louis Kleeman, wife of Rev. Louis Kleeman at Barrington, Ill., on Wednesday.

Miss Joanne Demmink of Grand Rapids, Michigan is a guest in the home of Mr. and Mrs. Herman Schweser.

OPEN TELEPHONE COMMUNICATION WITH DENMARK

Transatlantic Circuit Extended to 126,000 Stations in City of Copenhagen

Transatlantic telephone service between America and Copenhagen, the capital of Denmark, through London was opened on June 29. The service on the American side includes all of the United States and Cuba and thirty-seven principal cities of Canada. Copenhagen, with a population estimated at 775,000, has a total of approximately 126,000 telephones.

Denmark is the seventh European country to be connected with America by telephone. The overseas circuit is now in operation from 6:30 A. M. to 10 P. M., Eastern Daylight Saving Time, which corresponds to 11:30 P. M. to 3 A. M. in Denmark. The extension to Copenhagen puts the United States in communication with ten foreign countries. The service in Europe includes all points in Great Britain and Germany, Paris and important cities in Belgium, Holland and Sweden.

TELEPHOTO DELIVERS BANQUET SOUVENIRS

When the ceremonies dedicating the new Chicago Mercantile Exchange were held, many thousands of persons listened in by radio and, in addition, several hundred others received a visualization of the banquet. A photograph of the banquet was taken and sent by telephoto by one of the leading firm members of the Exchange to their friends in Boston, St. Louis, Atlanta, New York, Cleveland and San Francisco, with the result that in these places where the banquet was still in progress.

EMMERSON CALLS PARTY TO ARMS

Secretary of State Fires Opening Gun in gubernatorial Campaign.

ANSWERS THOMPSON CHARGES

Declares Democratic Candidate Betrayed Trust—Says Opposition Ticket Picked by Political Bosses.

Mr. Vernon, Ill., August 15.—In the presence of thousands of southern Illinois Republicans, the party nominees for state office and prominent leaders from every section of Illinois here today, Louis L. Emmerson, Republican nominee for governor, made his first political speech since the April primary. It was a ringing call to arms for Republicans and a challenge to the Democratic State candidates, who, he declared, were hand-picked by a boss-controlled political machine and were selected because they would do the bidding of the machine.

He answered in detail the charges made by his opponent, Floyd E. Thompson, declaring every one of them false, and quoted from a letter written by Judge Thompson's former campaign manager and the report of a Rock Island County grand jury as evidence that Thompson betrayed his trust while state's attorney of his home county by failing to assist in ending the reign of vice and crime which finally resulted in intervention by the attorney general of the state.

He reiterated his primary pledges and declared that his only ambition was to give the state of Illinois an efficient, business-like administration. In closing, Mr. Emmerson made a plea for enthusiastic support of Hoover and Curtis and the entire Republican ticket in the interest of good government.

Recalls First Announcement.
"Nine months ago," Mr. Emmerson said, "before just such a gathering as this of my neighbors of Jefferson county and my friends from the southern half of the state, I announced my candidacy for the Republican nomination for governor. Since then

Louis L. Emmerson.

we have had a primary, the most remarkable in the history of Illinois. The men and women who constitute our state ticket were selected by such overwhelming majorities that the results attracted national and even international attention.

"More than a million votes were cast in favor of our cause and our candidates and the party thus decided by majorities which left no room for doubt as to the sentiment of the voters.

"Contrast this with the situation in the Democratic party. Whereas the Republican state candidates and the issues involved in the campaign were decided by the people in this tremendous outpouring of the electorate, the Democratic State ticket was hand-picked by a boss-controlled political machine which left nothing for the rank and file of the party to determine. Only 244,000 votes were cast for the Democratic nominee for governor, while 1,660,000 votes were cast by Republicans in selecting the Republican candidate. But if only one vote had been cast for the Democratic candidate he would still be the nominee, for he had no opposition. The machine saw to that and if by any chance the Democratic nominees for state office should win in November, the machine would dictate the policies of the state government.

Machine Controls Them.

"The Democratic nominees owe allegiance to the machine and not to the rank and file of the party. The Republican nominees are responsible to the people who chose them.

"Voters must not lose sight of this difference between the two parties in this state, for it is fundamental. Every effort is being made by the Democratic candidate for governor to begot the situation so that this fact will be overlooked. He is resorting to the favorite pettifoggery trick of the cheap politician in attempting to force himself into public favor, not by offering anything constructive but by maligning and slandering his opponents. You are urged to elect Floyd

Thompson governor not because he has shown any marked qualifications for administration or because the Democratic party can be depended upon for good government, but because Mr. Thompson says Louis L. Emmerson is a crook. You are asked to elect Mr. Thompson, not because his faction of the Democratic party has been noted for devotion to the interests of the people, but because he says Mr. Emmerson is a law-breaker and a thief.

"Even if the slanderous charges he makes against me were true, it would not prove his superior fitness.

Says Thompson Betrayed Trust.

"I hold in my hand a letter written by Dr. G. F. Johnson, of East Moline, former mayor of his city, an ex-service man, a former chairman of the Rock Island Democratic Central committee and a life-long Democrat. It is addressed to the chairman of the Rock Island Democratic committee under date of February 20, 1928, after Mr. Thompson had been selected by the machine as the candidate for governor.

"In the letter Dr. Johnson resigns as a member of the Democratic county committee because he says he cannot support Mr. Thompson. He points out that he managed Floyd Thompson's campaign for state's attorney of Rock Island county, but cannot be for him now because of the way Mr. Thompson betrayed the trust of the law-abiding people. He accuses Mr. Thompson of being responsible, more than any other man, for the vice conditions in Rock Island county which resulted finally in the calling of the attorney general into the county to clean up the mess and the sending of several men in the vice ring to the penitentiary. He charges that the vice ring of which John Looney was the overlord and which was the most notorious in the state, contributed freely to Mr. Thompson's campaign; that by performance of his duty as state's attorney, Mr. Thompson could have prevented the loss of eight or ten lives and the shame and disgrace that followed. He asserts that Mr. Thompson, who was a young unmarried man at the beginning of the World war, was a slacker and refused to go into service, although one of his assistants enlisted and was killed in action and he was afterwards frequently importuned to enlist himself.

Cites Grand Jury Report.

"There are many other accusations in this letter of Dr. Johnson which I will not repeat.

"The grand jury of Rock Island county in January, 1914, after Mr. Thompson had been state's attorney for two years, asked for a special prosecutor to investigate official corruption consisting of bribery, embezzlement and conspiracies to commit illegal acts injurious to public morals and administration of public justice and other crimes and misdemeanors. "The grand jury then added this statement: 'That Floyd Thompson, state's attorney of Rock Island county, is interested therein and that this grand jury believes that in order to properly and fully investigate said matters and all the matters connected therewith and growing out thereof, that it is necessary that a special state's attorney be appointed to assist the grand jury to investigate said matters.'

"The special state's attorney was appointed and some indictments were returned, but the gang was too strong and the public was not sufficiently aroused to secure convictions.

"The conditions continued all through the eight years of the Thompson administration of the office of state's attorney and it was this situation which he refused to leave when the war came on. Oscar E. Carlstrom, then state's attorney in an adjoining county, resigned his office and went into the service, but Mr. Thompson was too busy to go.

State Had to Step In.

"It was not until after Thompson stepped out as state's attorney that the real cleanup came in Rock Island county. Indignant citizens raised a large fund and the attorney general of the state was called in. Looney and his gang were sent to the penitentiary and they are still there.

"In the course of these trials the former relationship between the Looney gang and Floyd Thompson was brought out. One witness, Lawrence Pedigo, declared under oath that Looney brought him to Rock Island to work for Floyd Thompson's election to the Supreme court. While the campaign for funds for this prosecution was in progress Judge Thompson in a speech ridiculed the citizens' committee, calling them 'Purity Leaguers.' "But I have no intention of conducting a muck-raking campaign. I cite these facts merely to show that Mr. Thompson's strictures against someone else do not prove his own fitness. "But since Mr. Thompson has seen fit to repeat his slanderous statements regarding me in every section of the state and to make them the sole issue in his campaign, I want to answer them specifically and in detail, once and for all time.

Denies Interest Charge.

"He says that I withheld money from the state treasury and that I have used these funds for my own advantage without paying interest on them.

"The statement is an absolute falsehood. The funds which have passed through my hands have been paid into the state treasury in strict compliance with the law. When I became secretary of state the law required state officials to pay money they collected into the treasury at the end of ninety days. I personally advocated and assisted in securing the passage of an amendment of the law which requires this money to be paid in within thirty

days and I have adhered strictly to the law making payments daily as rapidly as checks cleared the banks except where enjoined by the courts.

"I have never collected interest on public funds in my keeping and consequently could not have paid interest into the treasury. The law does not contemplate that I should. The collections of my office are received for the most part in items of small denominations, sometimes as many as 30,000 items in one day. Banks usually charge for the service of collecting small checks. The banks which have performed this service for the state during my administration have not charged for the service, but they do not pay interest on funds which they have in their custody for but a few days at a time. I have here statements from every bank with which I have done business as secretary of state, asserting emphatically that at no time have they paid anything to me directly or indirectly, not even in the form of campaign contributions, in return for the deposit of these funds.

Efficiency in Office.

"Under my direction the office of secretary of state has been conducted like a model business institution. It has been operated at less cost than any other similar department in the United States.

"Another of Mr. Thompson's charges is that I bought stock in a Springfield bank and paid for it with state funds. The stock I purchased in the Springfield bank I bought and paid for with my own personal funds, as my receipts and canceled checks will show.

"Another charge is that old, be-whiskered canard having to do with the 1920 Republican National convention. Mr. Thompson charges that I 'bought with cash the support of Nat Goldstein and some other St. Louis gangsters who had been elected delegates to the Republican National convention.'

"The charge is absolutely false. It was first made in 1920 by a man who has since gone to the penitentiary, and its purpose was to prevent Governor Lowden from securing the nomination for President. The money expended in the Lowden Presidential campaign in Missouri was for legitimate campaign expenses and at the time Goldstein and other political leaders say they received the money they were not even candidates for delegate to the national convention and they were not elected delegates until long afterwards.

"Mr. Thompson says that when I became secretary of state I was worth \$40,000 and that I have become a millionaire since that time. I do not know how he obtained an inventory of my personal estate, but I want to assure him that his figures are all wrong. Whatever I possess has been earned honestly by careful attention to business, and my financial rating is no better today than it was when I first became secretary of state.

Good Service Only Ambition.

"This answers in detail every charge Mr. Thompson has made against me. I have answered them not because of any fear of their effect upon the public but merely to keep the record clear.

"Never have I been guilty of a dishonest act in private business or in public office and never have I betrayed a trust.

"I became a candidate for governor because I believed my experience and training fitted me to give the state an honest, efficient administration. It is my one ambition to round out my career by filling the office of governor and by administering it in such a way that in after years it will be said that my administration was one of the most progressive and constructive in the history of Illinois."

Mr. Emmerson then called attention to his pledges of business efficiency in the state government, early completion of the bond issue system of hard roads, the working out of a plan for the surfacing of secondary roads, the widening of main arteries near large centers of population, reform in the taxing system so as to relieve farms and small homes of the unequal burden they now carry; assistance for agriculture, support legislation for the welfare of wage earners and the advancement of industry.

Praises Hoover.

On the national ticket he said:

"Herbert Hoover's wonderfully constructive statement of the issues of the campaign last Saturday shows a vision and a grasp of the problems of the day which cannot fail to win general approval. He has an established reputation as a man of great achievement and what he plans will be carried out. He was born in the middle-west; he has lived in the far west and in the east and his sympathies and knowledge of economic conditions and national problems is nationwide. There is no sectional narrowness in him. He is peculiarly fitted by temperament and training to give this nation a great administration.

"Illinois is for Hoover and the entire Republican state and national tickets. Let us get to work and make it the greatest victory in the history of the State."

Cork Insulation

A combination of cork and concrete for building houses is the latest innovation being tried out in England. It is claimed that the combination insulates the houses, both against cold and noise.

Orland Park News

Last Saturday the Girl Scouts held a bakery sale in Loebe's store and cleared \$13.

Mr. and Mrs. J. G. Loebe have been enjoying an auto trip to Kalamazoo, Michigan where they visited with relatives the week end, returning Tuesday. The latter part of the week they expect to motor to Waterloo, Iowa to visit relatives and on their return will take a trip to Wisconsin.

Mrs. August Schmadeke and daughter Marilyn of Cleveland, Ohio are visiting at the J. H. Schmadeke home. Mr. Schmadeke expects to join his family here on a vacation next week.

The Enra Nouse Club was entertained at the home of the Misses Emily and Eleanor Waje Tuesday evening.

The Orland Baseball team played the Summit team Sunday and

defeated them with a score of 6 to 2.

Rev. Mr. Wagner of Chicago preached at the Christ Lutheran church Sunday. A large congregation attended and his message was well received.

Mr. and Mrs. Gordon Powell expect to move to Joliet by September first.

The Orland Park players of the local M. E. Church presented their play "Oh, Kay" in conjunction with the Tinley Park M. E. Dramatic Club who also gave their play "Yimmie Yonson's Job" at the Blue Island Masonic Temple Wednesday and Friday night of this week.

The village board at their meeting Monday night awarded the contract for the installation of a 15 horse power motor and double acting cylinder pumping outfit to Herman Kruspe for \$950, his bid being the lowest. The new pump is to pump 70 gallons a minute. Work on installing the new outfit is to

start at once.

A number of local baseball fans attended a ball game in Chicago Tuesday.

The interior of the Orland Park school has been newly decorated and the seats and desks varnished preparatory to the opening of the school September 4th.

J. G. Loebe purchased a new Chrysler car last week.

John Klein is moving into his new home in the Gee sub-division.

The Misses Elizabeth Steffen, Mildred Newton, Ruth Kay, Velma Reisch, Gladys Townsend and Ruby Jthe, all Girl Scouts, leave next Monday for Gray's Lake where they will spend a week camping.

Mr. Joe Ruzzo visited in Decatur, Sunday with Ray Heald who is ill in the Wabash hospital, suffering with a double inward goiter.

The Child Welfare was well attended August 8th at the Orland Park school. Miss O'Connor, the nurse, wants the mothers with children six years old, who will start school the first time this September, to be examined by their doctor, vaccinated, and take the toxin anti-toxin treatment.

The next Welfare will be Wednesday September 12th from 10 to 12 A. M.

Francis Glahn returned the past week from a several weeks vacation spent in Wisconsin.

The Misses Isabelle Wagner, Hazel Schmadeke, Evelyn Mahaffay and Miss Ludwig have returned from a vacation trip to Lake Geneva, Wis. They all sport a fine coat of tan.

Mrs. Hattie Gee is visiting her daughters, Mrs. John A. Klein and Mrs. H. Adele Cooper after spending several enjoyable weeks with her aunt in Kansas.

Car Sideswiped

A serious auto accident occurred on 95th street near the Hickory Hills golf grounds last Thursday night, when a speeding car, going west, sideswiped a car going east and upset the latter in the ditch and then sped on. The wrecked car contained four women who were returning to Chicago from a trip thru Nebraska. Three of them were quite seriously injured. They were brought to Oak Lawn by passing autoists and from there were removed to a Chicago hospital by ambulance.

The car, which was quite badly wrecked was taken to the Piper's garage in Oak Lawn.

HOOVER MEETS FARM PROBLEM

Urges Expenditure of Hundreds of Millions on a Workable Program

FAVORS HIGHER TARIFF WALL

Farmers Must Control and Administer Federal Farm Aid, Says Candidate.

HOOVER ON FARM RELIEF:

An adequate tariff is the foundation of farm relief. Working out agricultural relief is the most important obligation of the next Administration. The object of our policies is to establish for our farmers an income equal to those of other occupations. Farming is and must continue an individualistic business of small units and independent ownership. If the farmers' position is to be improved by larger operations it must be done not on the farm, but in the field of distribution. Our platform lays a solid basis upon which we can build. It offers an affirmative program. Nature has endowed us with a great system of inland waterways. Their modernization will comprise a substantial contribution to mid-west farm relief and development of 20 interior states. There is no more vital method of farm relief.

PALO ALTO, Calif.—Herbert Hoover met the farm question fairly and squarely in his Address of Acceptance at the Stadium of Stanford University.

Nearly one-third of his address was devoted to this subject, which Hoover termed "the most urgent economic problem in our nation today." He declared bluntly that farm relief must not be delayed by any monetary considerations, urging that "a nation which is spending ninety billions a year can well afford an expenditure of a few hundred millions for a workable program that will give to one-third of its population their fair share of the national prosperity."

The candidate pledged himself to a farm-aid plan in which farmers shall themselves control and administer the federal financial assistance which he proposes to put into effect.

"The most urgent economic problem in our nation today is in agriculture," he said. "It must be solved if we are to bring prosperity and contentment to one-third of our people directly and to all of our people indirectly. We have pledged ourselves to a solution."

"In my mind most agricultural discussions go wrong because of two false premises. The first is that agriculture is one industry. It is a dozen distinct industries incapable of the same organization. The second false premise is that rehabilitation will be complete when it has reached a point comparable with pre-war. Agriculture was not upon a satisfactory basis before the war. The abandoned farms of the northeast bear their own testimony. Generally there was but little profit in midwest agriculture for many years except that derived from the slow increases in farm land values. Even of more importance is the great advance in standards of living of all occupations since the war. Some branches of agriculture have greatly recovered, but taken as a whole it is not keeping pace with the onward march in other industries."

Cause and Effect

"There are many causes for failure of agriculture to win its full share of national prosperity. The after-war deflation of prices not only brought great direct losses to the farmer, but he was often left indebted in inflated dollars to be paid in deflated dollars. Prices are often demoralized through glut in our markets during the harvest season. Local taxes have been increased to provide the improved roads and schools. The tariff on some products is proving inadequate to protect him from imports from abroad. The increases in transportation rates since the war has greatly affected the price which he receives for his products. Over six million farmers in times of surplus engage in destructive competition with one another in sale of their product, often depressing prices below those levels that could be maintained."

"The whole tendency of our civilization during the last 50 years has been toward an increase in the size of the units of production in order to secure lower costs and a more orderly adjustment of the flow of commodities to the demand. But the organization of agriculture into larger units must not be by enlarged farms. The farmer has shown he can increase the skill of his industry without large operations. He is today producing 20 per cent more than eight years ago with about the same acreage and personnel. Farming is and must continue to be an individualistic business of small units and independent ownership. The farm is more than a business; it is a state of living. We do not wish it converted into a mass production machine. Therefore, if the farmers' position is to be improved by larger operations it must be done not on the farm but in the field of distribution. Agriculture has partially advanced in this direction through co-operatives and pools. But the traditional co-operative is often not a complete solution."

"Differences of opinion as to both causes and remedy have retarded the completion of a constructive program of relief. It is our plain duty to search

out the common ground on which we may mobilize the sound forces of agricultural reconstruction. Our platform lays a solid basis upon which to build. It offers an affirmative program.

Tariff and Waterways

"An adequate tariff is the foundation of farm relief. Our consumers increase faster than our producers. The domestic market must be protected. Foreign products raised under lower standards of living are today competing in our home markets. I would use my office and influence to give the farmer the full benefit of our historic tariff policy."

"A large portion of the spread between what the farmer receives for his products and what the ultimate consumer pays is due to increased transportation charges. Increase in railway rates has been one of the penalties of the war. These increases have been added to the cost to the farmer of reaching seaboard and foreign markets and result therefore in reduction of his prices. The farmers of foreign countries have thus been indirectly aided in their competition with the American farmer. Nature has endowed us with a great system of inland waterways. Their modernization will comprise a most substantial contribution to midwest farm relief and to the development of twenty of our interior states. This modernization includes not only the great Mississippi system, with its joining of the Great Lakes and of the heart of midwest agriculture to the Gulf, but also a shipway from the Great Lakes to the Atlantic. These improvements would mean so large an increment in farmers' prices as to warrant their construction many times over. There is no more vital method of farm relief."

"But we must not stop here."

"An outstanding proposal of the Party program is the whole-hearted pledge to undertake the reorganization of the marketing system upon sounder and more economical lines. We have already contributed greatly to this purpose by the acts supporting farm co-operatives, the establishment of intermediate credit banks, the regulation of stockyards, public exchanges and the expansion of the Department of Agriculture. The platform proposes

REPUBLICAN RECORD

Our problems of the past seven years have been problems of reconstruction; our problems of the future are problems of construction. They are problems of progress.

During these years our population has increased eight percent. Yet our national income has increased 45 percent. The number of families has increased 2,300,000 and we have built 3,500,000 new and better homes. We have equipped 9,000,000 more homes with electricity, and through it drudgery has been lifted from the lives of women. The barriers of time and distance have been swept away and life made freer and larger by the installation of 6,000,000 more telephones, 7,000,000 radio sets and the service of an additional 14,000,000 automobiles.

By rigorous economy, federal expenses have been reduced two billions annually. The national debt has been reduced six and a half billions. Taxes have been reduced four successive times. We have doubled savings deposits and nearly doubled life insurance.

President Coolidge has not only given a memorable administration, he has left an imprint of rectitude and statesmanship on our country.

to go much farther. It pledges the creation of a Federal Farm Board of representative farmers to be clothed with authority and resources with which not only to still further aid farmers' co-operatives and pools and to assist generally in solution of farm problems but especially to build up with federal finance, farmer-owned and farmer-controlled stabilization corporations to protect the farmer from the depressions and demoralization of seasonal gluts and periodical surpluses.

Will Cost Money

"Objection has been made that this program, as laid down by the Party Platform, may require that several hundred millions of dollars of capital be advanced by the Federal Government without obligation upon the individual farmer. With that objection I have little patience. A nation which is spending ninety billions a year can well afford an expenditure of a few hundred millions for a workable program that will give to one-third of its population their fair share of the nation's prosperity. Nor does this proposal put the government into business except so far as it is called upon to furnish initial capital with which to build up the farmer to the control of his own destinies."

"This program adapts itself to the variable problems of agriculture not only today but which will arise in the future. I do not believe that any single human being or any group of human beings can determine in advance all questions that will arise in so vast and complicated an industry over a term of years. The first step is to create an effective agency directly for these purposes and to give it authority and resources. These are solemn pledges and they will be fulfilled by the Republican Party. It is a definite plan of relief. It needs only the detailed elaboration of legislation and appropriations to put it into force."

"During my term as Secretary of Commerce I have steadily endeavored to build up a system of co-operation between the government and business. Under these co-operative actions all elements interested in the problem of a particular industry such as manufac-

turer, distributor, worker, and consumer have been called in council together, not for a single occasion, but for continuous work. These efforts have been successful beyond any expectation. They have been accomplished without interference or regulation by the government. They have secured progress in the industries, remedy for abuses, elimination of waste, reduction of cost in production and distribution, lower prices to the consumer, and more stable employment and profit. While the problem

POINTS FROM HOOVER SPEECH

It shall be an honest campaign; every penny will be publicly accounted for.

Having earned my living with my own hands I cannot have other than the greatest sympathy with the aspirations of those who toil.

Our purpose is to build in this nation a human society, not an economic system.

Appointive office, both North, South, East and West, must be based solely on merit, character, and reputation in the community in which the appointee is to serve.

Participation of women in politics means higher standards.

Our workers can buy two and often three times more bread and butter than any wage earner in Europe.

By blood and conviction I stand for religious tolerance both in act and in spirit.

Our foreign policy has one primary object, and that is peace.

Government should not engage in business in competition with its citizens.

varies with every different commodity and with every different part of our great country, I should wish to apply the same method to agriculture so that the leaders of every phase of each group can advise and organize on policies and constructive measures. I am convinced this form of action, as it has done in other industries, can benefit farmer, distributor and consumer.

Greater Opportunities

"The working out of agricultural relief constitutes the most important obligation of the next Administration. I stand pledged to these proposals. The object of our policies is to establish for our farmers an income equal to those of other occupations; for the farmer's wife the same comforts in her home as women in other groups; for the farm boys and girls the same opportunities in life as other boys and girls. So far as my own abilities may be of service, I dedicate them to help secure prosperity and contentment in that industry where I and my forefathers were born and nearly all my family still obtain their livelihood."

"The Republican Party has ever been the exponent of protection to all our people from competition with lower standards of living abroad. We have always fought for tariffs designed to establish this protection from imported goods. We also have enacted restrictions upon immigration for the protection of labor from the inflow of workers faster than we can absorb them without breaking down our wage levels."

"The Republican principle of an effective control of imported goods and of immigration has contributed greatly to the prosperity of our country. There is no selfishness in this defense of our standards of living. Other countries gain nothing if the high standards of America are sunk and if we are prevented from building a civilization which sets the level of hope for the entire world. A general reduction in the tariff would admit a flood of goods from abroad. It would injure every home. It would fill our streets with idle workers. It would destroy the returns to our dairymen, our fruit, flax, and livestock growers, and our other farmers."

Prohibition

On the subject of prohibition, Mr. Hoover repeated his recent declaration: "I do not favor repeal of the 18th Amendment. I stand for efficient enforcement of laws enacted thereunder. Our country has deliberately undertaken a great social and economic experiment, noble in motive and far-reaching in purpose. It must be worked out constructively." And he added the following comment:

"Common sense compels us to realize that grave abuses have occurred—abuses which must be remedied. Investigation can alone determine the wise method of correcting them. Crime and disobedience of law cannot be permitted to break down the Constitution and laws of the United States."

"Modification of the enforcement laws which would permit that which the Constitution forbids is nullification. This the American people will not countenance. Change in the Constitution can and must be brought about only by the straightforward methods provided in the Constitution itself. There are those who do not believe in the purposes of several provisions of the Constitution. No one denies their right to seek to amend it. They are not subject to criticism for asserting that right. But the Republican Party does deny the right of anyone to seek to destroy the purposes of the Constitution by indirection."

"Whoever is elected President takes an oath not only to faithfully execute the office of the President, but that oath provides still further that he will, to the best of his ability, preserve, protect and defend the Constitution of the United States. I should be untrue to these great traditions, untrue to my oath of office, were I to declare otherwise."

A Long Distance Call Is a Simple Matter

PERHAPS there are still a few persons who believe that making a long distance call is a long-drawn-out, complicated and expensive procedure. Such is by no means the case. It is very easy to make any kind of a long distance call.

To make a station-to-station call, you merely call "long distance" and when the operator answers you tell her the number of the distant telephone. If you do not know the number, give the name and address under which the telephone is listed. The charge begins when the called telephone answers.

To make a person-to-person call, you tell the long distance operator the name and telephone number or address of the person to whom you wish to talk. The charge begins when communication is established with that person.

If you wish to know the rates or desire any other information, the long distance operator will help you.

C. Stephens, District Manager

Let Us Give You an Estimate

Senator A. S. Cuthbertson, Bunker Hill, chairman of the Illinois Valley Flood commission; A. T. Dunn, Beardstown, secretary of that organization, and the director of agriculture, Stillman J. Stanard, as the agricultural member, formulated plans recently for a series of hearings to be conducted at various Illinois river points during September. Civic organizations, city officials, farm bureaus and other organizations concerned will be urged to participate in the public meetings to be scheduled. Each community along the river, concerned about future flood prevention, is urged to delegate representatives to place their flood situations before the body. The flood control agencies of the federal government will co-operate with the state commission, which is to report to the next regular session of the state legislature, outlining, if possible, a comprehensive plan for future state and federal flood prevention efforts.

Bright red numerals on a solid field of black will constitute the color scheme of Illinois' 1929 automobile license plates instead of the green and white combination recently announced by Secretary of State Louis L. Emmerson. Secretary Emmerson, who administers the law relative to the sale of these plates, several weeks ago selected a green plate with white numerals. Several states in the Central West selected similar plates for 1929 and asked Illinois to change its colors. The black background with red numerals was the most distinctive of the samples presented and was picked for the 1929 plates. Secretary Emmerson says he cannot recall that any state in the Union ever has used this combination of colors. The state recently contracted for the manufacture of the plates at a trifle more than eight and one-half cents a pair. This is believed to be the lowest price paid by any state in the country.

The weekly health report issued by Dr. Isaac D. Rawlings, state health director, shows comparatively few cases of contagious diseases in the downstate section. The report is in part as follows:

Diphtheria—Seventy-two including Cook county with sixty-seven.

Scarlet fever—Sixty-one, including Cook county with thirty-two; Christian county, five.

Typhoid fever—Twenty-one, including Cook county with five. Smallpox—seven; pneumonia—ninety-six; influenza—twenty-four; whooping cough—two hundred twenty-two; tuberculosis—three hundred and seven.

Col. Charles A. Lindbergh, lone conqueror of the turbulent Atlantic by air, paid the capital city a few moments' visit recently. His coming was unheralded as usual. Colonel Lindbergh was a passenger on the north-bound mail plane from St. Louis. He was very reticent about discussing future plans. Later reports indicated that Lindbergh landed safely at the Maywood field in Chicago.

Rides on the knee of Abraham Lincoln away back in 1848 were thrills which Mary Lucetia Evans, for seventy-five years a resident of Bloomington, liked to tell about before her death recently. Lincoln used to come to her father's hotel in Metamora. It was in this hotel that Mrs. Evans, then eight years old, first saw Lincoln. She recalled him going up and down the ladder that led to the second floor. She also recalled how Lincoln would come into the kitchen early in the mornings and chat with the women while they prepared breakfast. There he used to pick up the little girl of eight and give her rides upon his knee.

Peaches from the Wabash valley country began to move during July. The first car to be inspected by representatives of the division of standardization and markets, Illinois department of agriculture, moved from Mt. Carmel at the month-end. The inspection forces also issued certificates for 18 cars of cabbage shipped from Quincy, winding up the early cabbage movement in car lots. Early apples, to the extent of 44 car loads were inspected during the month. These originated at nine stations—four in Johnson county, three in Calhoun and one each in Marion and Clay counties.

Announcement was made a few days ago of the appointment of Carey N. Posegate, Springfield, as chief engineer of the Illinois commerce commission. The appointment is in the form of a promotion. Mr. Posegate having held the position of railroad engineer for the commission for the last ten years, and in that capacity has won recognition as an authority in the utilities field.

Col. C. C. Miner, assistant superintendent of the division of foods and dairies, Illinois department of agriculture, selected to superintend the dairy products exposition at the Illinois State fair, August 18 to 25, finds that exhibit space will be all filled to overflowing. A draft of the exposition floor plan shows a decided change in the arrangements. The big icebox, formerly in the center of the building, is moved to the east end. That was done to provide space for a new exhibit the department of agriculture will present.

A new kind of a Lincoln story is being told by David R. Lewis of Bloomington.

"In the year 1893 I clerked in Gibson City," he relates, "for Charles Means, a brother of W. C. Means, former county treasurer. One morning Aunt Lydia Rowman, who lived between Saybrook and Gibson, brought an old two-gallon jug in for coal oil. I asked her why she didn't throw the old jug away, since it had a broken handle, and get a nice new can."

"Young man," she said, "if you knew the history of that jug you would not part with it either. One morning I was coming from the house to the wagon to drive to town. My husband was waiting for me when a man rode past on horseback. He called to us as he passed that Lincoln, our President was assassinated. It frightened me so that I let the jug fall and broke the handle."

The Illinois Watch company band, favorites with Springfield and Illinois state fair audiences for many years, all dressed up in new and natty uniforms, will occupy the platform in the coliseum during the Illinois state fair. Excepting Sunday the musical organization will be on duty every day of the fair, August 18 to 25. On the opening day, Saturday, August 18, the band will play between the automobile races. In that auto races during the past two years have drawn greater grandstand patronage than any other attraction, it is forecast that the band will have a large audience for their first appearance at the fair this year.

Visitors at the Illinois state fair grounds, now in readiness for the seventy-sixth annual exposition, pronounce the grounds as they are now, the most attractive in the history of the fair. The lawns have beauty added by flower beds and shrubbery artistically arranged. Driveways, made of shale, have been extended all about the grounds. The trees have been freshly whitewashed, and the entire effect is one of neatness and beauty. Contractors are administering the final touches to the six new dairy cattle stables and the dairy exposition building—the outstanding portion of the year's allotment of the building program. The new steel mesh fence around the added acreage is completed, giving the fair grounds abundant room for free parking ground and the tented city.

Sixteen hundred sources of information were questioned during July, for the August 1 report of cattle on feed throughout the state, to be issued by the Illinois and United States Departments of Agriculture, through the division of co-operative crop and live stock estimates. Other inquiries and reports—sixteen in all, were sent out during the month, according to the report A. J. Surraat, agricultural statistician, submitted to Stillman J. Stanard, director of agriculture. There were upwards of 22,500 copies in all, ranging from 6,500 wheat and rye acreage inquiries to a few special reporters questioned as to the outlook of the crops of minor importance in Illinois such as pecans, broomcorn and cotton.

Total output of coal mines in Illinois showed considerable gain, according to a report just issued by the bureau of mines, United States Department of Commerce. Output for one week recently was 703,000 tons, a gain of 100,000 tons over the previous week's figures. Three states, Pennsylvania, West Virginia, and Kentucky, produced more coal in June than Illinois did.

Proposals for the construction of important major units of the Illinois deep waterway were opened a few days ago by Leslie Small, director of purchases and construction, and William F. Mulvihill, supervisor of the Illinois waterway construction. One proposed contract calls for the construction and installation of gate and valve operating machinery for five waterway locks.

A. L. Kildow, chief apilary inspector of the Illinois department of agriculture, and V. G. Milum, secretary of the Illinois State Bee Keepers' association, report a successful tour of central Illinois apilaries, ending August 4. At various points along the 500-mile route the party followed, ten apilary authorities spoke to interested audiences. By way of refreshments, a novel honeyed drink was introduced successfully. That it is not bad to take is evident in results of the drinking bout the beemen staged. The winner drank, and held, fourteen man-sized glasses of the sweet concoction, and admits no ill results. Other means of popularizing honey were employed. Bee disease elimination, and talks along all lines of apilary work featured the program. There were 61 bee men, including officers and speakers, who made the entire tour. At every stop along the route, good crowds assembled to hear the speakers and witness the entertainment features presented.

Revenue stamps, adhering to old notes and deeds, affixed during and after the Civil war, between 1862 and 1870, may have a value to collectors, but are not legally obtainable from papers in possession of County and Circuit court clerks in Illinois. This opinion was given State's Attorney Hugh V. Murray of Clinton county by Attorney General Oscar E. Carlstrom in answer to a request from Murray. A man applied to both the County and Circuit courts in Clinton county with a request that he be permitted to tear revenue stamps from old records.

LEADING RADIO PROGRAMS

Sunday School Lesson

(By REV. F. B. FITZWATER, D.D., Dean Moody Bible Institute of Chicago.)
(© 1928 Western Newspaper Union.)

Lesson for August 19

PAUL CARRIES THE GOSPEL INTO EUROPE

LESSON TEXT—Acts 15:36-16:15.
GOLDEN TEXT—Come over into Macedonia and help us.
PRIMARY TOPIC—Paul's Wonderful Dream.
JUNIOR TOPIC—God Calls Paul to Work in Europe.
INTERMEDIATE AND SENIOR TOPIC—Pioneering in Europe.
YOUNG PEOPLE AND ADULT TOPIC—Paul's Call to Europe.

I. Finding an Assistant for Paul (Acts 15:35-16:5).

1. Contention over John Mark (vv. 36-41).

(1) Paul's proposal (v. 36). This was to revisit the scenes of their missionary endeavors to find out what progress the believers were making in their Christian experience.

(2) Determination of Barnabas (v. 37).

It was to take with them John Mark, Barnabas' nephew (Col. 4:10).

(3) Paul's opposition (v. 38). He was suspicious of Mark because of his desertion on a former journey (Acts 13:13).

(4) Their separation (vv. 39-41).

Their contention was so sharp that they separated. God overruled this incident to the wider extension of the work. Barnabas took Mark and sailed to Cyprus; Paul chose Silas, and went through Syria and Cilicia.

2. Finding Timothy (16:1-5).

(1) The place (v. 1). It was the very place where Paul on his first journey had endured cruel stoning. The conversion of Timothy may be regarded as fruitage of Paul's testimony at that time.

(2) His parentage (v. 1).

His mother was a believing Jewess and his father a Greek.

(3) His character (v. 2).

He had a good reputation in the church at Lystra and Iconium.

(4) His circumcision (v. 3).

Timothy had not been circumcised. Doubtless this omission was because his father was a Gentile. To avoid offense among the Jews, Paul circumcised Timothy.

(5) The ministry of Paul and Timothy through the cities (vv. 4, 5).

They delivered decrees which had been ordained at the Jerusalem council (Acts 15:19-24).

II. Forbidden to Preach the Word in Asia (Acts 16:6-8).

The inclination of Paul was to tarry in Asia Minor preaching the Word, but contrary to their inclination they were hurried along. The Holy Spirit is just as active and faithful in closing doors as in opening them.

III. The Call to Macedonia (vv. 9-12).

The time had now come for the gospel to begin its conquest of another continent. By the crossing of the gospel from Asia to Europe the church, instead of becoming an oriental movement, became mainly occidental.

1. The vision (v. 9).

Being hemmed in on all sides, a vision was given to Paul of a man of Macedonia pleading for help, which made clear the meaning of the closed doors about him.

2. The advance (vv. 10-12).

As soon as the divine way was known they moved forward. Visions, to be effective, must be quickly translated into aggressive action.

IV. The First Convert in Europe (vv. 13-15).

The Jewish element in Philippi was so small that it was unable to afford a synagogue, therefore the devout people were accustomed to worship by the riverside. To a humble gathering of this kind Paul came and preached. Lydia, a business woman from Thyatira, believed. The steps in her conversion are worthy of note, as typical.

1. Attendance at the place of worship (v. 13).

Usually those whom God is calling are found at the place of prayer.

2. Listening to the preaching of the Word of God (vv. 13, 14).

Faith cometh by hearing and hearing by the Word of God (Rom. 10:17).

3. Her heart was opened by the Lord (v. 14).

Only the Lord can convert a soul. It is our business to preach the Word of God, and it is God's business to open the heart of the inquirer. Regeneration is a supernatural work.

4. She was baptized (v. 15).

Every one whose heart the Lord has opened desires to confess Him in baptism.

5. Her household believed (v. 15).

6. Hospitality practiced (v. 15).

Those who have experienced God's saving grace are disposed to have part in His work by rendering aid to His ministers.

Nowhere Else to Go

I have been driven many times to my knees by the overwhelming conviction that I had nowhere else to go. My own wisdom, and that of all about me seemed insufficient for that day.—Abraham Lincoln.

Not Without Christ

A man may go to heaven without health, without riches, without honor, without learning, without friends, but he can never go there without Christ.—Jno Dyer.

Stem-Rust Spores in Barberry Bush

Common Plant May Produce 64,000,000,000 in Course of One Year.

(Prepared by the United States Department of Agriculture.)

Calculating the possibilities of the barberry bush as a source of stem rust in wheat has carried investigators of the United States Department of Agriculture into mathematical multiplications that are beyond the reading capacity of the man whose arithmetical tables may have stopped with billions or trillions. Lynn D. Hutton, of the bureau of plant industry, says that a common barberry bush 6 to 8 feet high may produce more than 64,000,000,000 stem-rust spores in a single year.

Spores Are Small.

These spores are extremely small and may be carried by the wind. Each one that alights on a grain or grass plant may produce a rust pustule which contains 200,000 red or summer-rust spores, and any one of these alighting on a grain plant may again multiply itself by about 200,000 within a week or ten days. Just assuming that each spore from the original bush lodged favorably and multiplied, the number of rust spores in the second generation of red rust would be expressed by 256 followed by 19 zeros, besides which the number of cents in all the European war debts combined would make comparatively easy reading.

Grain Loss Is Big.

Four or five additional generations may be produced in a year favorable to rust spread. Fortunately for our food supply only a small percentage of these spores ever actually germinate and damage the small grains. Those that do live, however, are responsible for an average annual loss of 50,000,000 bushels of small grains in the upper Mississippi valley states.

How many barberry bushes may remain as sources of infection is not known. Many have been destroyed as farmers have realized how dangerous they are, but many have not yet been reached. Each one remaining is a source of danger.

Cod Liver Oil Gives Uniformity to Chicks

Those who have made use of cod liver oil—given it a thorough trial for a complete season, feeding it to all fowls on the plant from growing chicks to matured laying and breeding stock—report a decided better and more uniform growth in young chicks, better molt in old birds. Common diseases of the flock have been practically eliminated. The layers produce many more eggs. Eggs for hatching have been more fertile and the eggs hatch better. They also say the cost is nil compared with the result obtained.

The poultry raiser who fails to make use of cod liver oil in his poultry-feeding operations for the layers, breeders and growing stock is making a big mistake. A season's trial will be the best investment ever made.

Lime and Phosphates as Pasture Top Dressings

Some of the English investigators have demonstrated the good effect from lime and phosphates as top dressings of pasture. The carrying capacity has been doubled under such treatment. Previously cattle or sheep grazing on such land had been troubled with rickets resulting in heavy losses from cripples and paralysis. In one such instance reported from England, lime and superphosphate were applied. Samples of the grasses from treated and untreated areas were analyzed showing that the percentage of phosphorus, potash and lime had been more than doubled through the treatment. The increases were as follows: Phosphorus 136 per cent, potash 102 per cent, lime 152 per cent.

Agricultural Notes

Artichokes make good pasture for hogs in late summer or early fall.

Cut the lawn often and do not remove the clippings. They help to build a good lawn soil.

The popular vegetable, asparagus, should be cultivated during the summer months even though the stalks are not producing. Efforts along this line will be rewarded next spring by big, healthy stalks.

Garden plantings, either fruit or vegetable, frequently suffer from lack of moisture during summers. Complete control of weeds and grass in the garden is the protection practiced by the skillful grower.

Dust wallows are a source of pleasure to the hens during the summer months. Spade up the fresh, moist earth in the shade, and the hens will do the rest. Dust baths are instrumental in keeping lice under control.

If the pigs do not have permanent shade, such as that provided by trees, put up a temporary structure, says live-stock specialists of the Pennsylvania State college. This is especially important for heavy hogs and sows farrowing in the fall. Also provide plenty of fresh, clean, drinking water in receptacles in which the pigs cannot wallow.

new
The modern way to make jelly, use **PEXEL** and get this

never this

JELLY failure is a thing of the past. Pexel is here. It's a 100% pure-fruit product that always makes jelly jell. Absolutely colorless, tasteless, odorless.

Pexel makes any jelly jell by the time it is cold. With it, jelly is ready for the glasses as soon as it comes to full boil. Thus Pexel saves fruit, sugar, flavor, time and fuel. Right here it repays, from one to three times, the 30c it costs.

Get Pexel at your grocer's. A recipe booklet with complete recipes, accurate tables in each package. 30c. The Pexel Company, Chicago, Ill.

For example—with Pexel

4½ cups strawberry juice and 8 cups sugar make 11 glasses jelly.

4½ cups raspberry juice and 8 cups sugar make 11 glasses jelly.

6 cups currant juice and 10 cups sugar make 14 glasses of jelly.

4½ cups grape juice and 7 cups sugar make 10 glasses jelly.

new

Return good for evil and after your enemy gets over his suspicions, he will reciprocate your good will.

One Secret of Beauty Is Foot Comfort

Frequently you hear people say, "My feet perspire winter and summer when I put on rubbers or heavier footwear—then when I remove my shoes my feet chill quickly and often my hose seem wet through." In every community thousands now use Allen's Foot-Ease in the foot-bath daily and then dust the feet and shake into the shoes this antiseptic, healing powder. Full directions on box. Trial Package and a Foot-Ease Walking Doll sent Free. Address, Allen's Foot-Ease, Le Roy, N. Y. In a Pinch, Use Allen's Foot-Ease.

Women—Sell Hosetex; capital unnecessary. You start your new discovery prevents runs, silk hose. Write for amazing offer. Stur Products Co., 15 Park Row, Suite 1223, N. Y.

Virginia Farm Bargains. Take advantage of opportunities to buy farms near increasing industrial centers. Good markets. Fine climate. Tuggle & Hardy, Blackstone, Va.

TINLEY PARK

Forty-two garden clubs affiliated with the Garden Club of Illinois co-operated with the Chicago Tribune the first week in selecting the ninety-nine prize winning gardens in The Tribune's amateur flower garden contest. Six members of the Tinley Park Garden club served as judges. They were: Mrs. Wm. Funk, chairman of the committee No. 1, Mrs. Frank Baldwin and Mrs. J. C. Funk, Mrs. A. C. Koehler, chairman of committee No. 2, Mrs. Henry Kehres and Mrs. R. Hug.

The committees reported a most interesting time while inspecting the gardens assigned to them by the Tribune.

The task of ranking the prize gardens will be done by a special group of nine judges who are being appointed by the Tribune.

Flower gardening certainly is becoming popular and this contest gave every flower lover a splendid opportunity to do his best. Ever though a contestant will not be a winner of one of the ninety-nine cash prizes, he will likely be a winner of better methods of gardening.

Mrs. Pailca, Mr. Decker, Miss Wilcox, Miss Strader and Charles Rose of New York spent last week at the Ben Bettenhausen home. They left Saturday for Washington, D. C.

Miss Pauline Hirsch of Chicago spent the week end with Miss Jean Bettenhausen.

Mr. and Mrs. Henry Schoeneck entertained the following guests at their home Thursday evening. Mr. and Mrs. Harry Wegman and son Earl and daughter Adelaide of New Orleans, Mr. and Mrs. William Weaver of Erie, Pa., Mr. and Mrs. Wm. Nill, Miss Anna Radle of Hammond, Ind., Mr. and Mrs. Miller and children of Calumet City, Mr. and Mrs. Ervin Warming and sons of Mokena and Mr. and Mrs. E. Schoeneck and children.

Misses Viola and Esther Wilke, Anna Roecker, Matilda Meyer, and Florence Emery enjoyed a motor trip to Starved Rock Wednesday.

Miss Jessie Wilkie has been spending part of her vacation visiting in Monee and Joliet with relatives.

A new bunco club is being formed.

Mr. and August Goebel and family have returned to Overton, Neb., after visiting with the formers brother, Carl Goebel and other relatives.

The Tinley Park bunco club was entertained at the Freberg home on Thursday.

Work on paving 183rd street to the south of here is going on rapidly. The pavement is up to the Y and the mixing machine will be moved to the west end of the road in a few days.

The new home bakery started by Mrs. Olson is going over big. She has a big demand for her bakery goods.

Paul Rauhoff and his mother are on a trip thru the south. They also have visited at Washington, D. C.

Misses Viola and Jessie Wilkie attended the wedding of their friend Miss Lucile McGregor in Chicago Saturday.

The Lions Club are making big preparations for a dance at Saenger hall Labor day night. The same orchestra which played at the 4th of July dance will play Labor Day.

An old time dance will be held on Saturday night, Sept. 1 at Saenger hall. Jack Eddy well known to Tinley Park folks will play.

Mrs. Francis Harper and daughter Mary are visiting at Ann Arbor Michigan.

Miss Ellen Bancroft of Anaconda, Montana is a guest at the Harper home.

MOKENA

SHOE REPAIRING

Ladies and Gents sewed half soles. This is the main feature of our shoe repair service. Bring your next pair to H. Leonhardt's shoe repair shop, Mokena, Illinois.

The St. John's Evangelical Ladies Aid will hold their bazaar Nov. 1.

Paving on Wolf Rd.
Extended 16 Miles

Paving work on Route 51 is going along at a good rate. This week the paving work has been brought up as far as the Klose farm northeast of Mokena this week. A stretch of about 800 feet will not be paved until next spring as this is on a hill which must settle before it can be paved. It is understood that this gap will be graveled so it can be travelled on. A gap of 400 feet is to be left on each side of the R. I. crossing until it is decided if the railroad will build a subway or viaduct at this crossing. Work on paving toward the Lincoln will be started next. Paving will be laid to the Lincoln highway at the four corners north of Frankfort and end there for the time being until a decision is reached regarding the routing of Route 51 around the village of Frankfort.

Supervisor Chas. Doctor of Orland township states that the Wolf road is to be paved sixteen miles north of 143rd street which will bring it up near Western Springs. Culverts and bridges will be built this fall.

The paving of Wolf Road from 143rd street south to 183rd street is over half completed. A number of gaps on fills will be paved after the south end is paved.

Wolf Road is coming into its own after a long wait and much effort.

(continued from front page)

much neglected by the men who look after the political welfare of this community by not having a road connection with the State Bond Issue Hard Roads.

This Association, during the Winter and Spring of 1927, made a hard fight to have State Bond Issue Route 51 located on Wolf Road from Route 44 on Wolf Road thru Mokena to 143rd Street in Cook County but lost the fight.

Nevertheless, our efforts were not in vain and, due to the publicity this Association gave Wolf Road, the Commissioners of Cook County had Wolf Road, from the Cook and Will County line to the Lake and Cook County line, made a State Aid Road, and Cook County is now paving Wolf Road from 143rd Street in Cook County to the Will and Cook County line, which pavement will be completed by September 30th, 1928, and which leaves a gap of six (6) miles to Route 51 on Wolf Road.

This Association was the first and only Association to give the gas tax any publicity, as we felt by doing so, Wolf Road would be paved from the Cook and Will County line to the Lincoln Highway and to Route 51 on Wolf Road, but so far the State Highway Department has taken no steps to pave the gap.

The Incorporated Village of Mokena has also been neglected by you, inasmuch as it is not shown on your road map which you published this year.

We are confident that you will be the next Governor of the State of Illinois, and would like very much to have an expression from you, as to what you will do towards paving the gap on Wolf Road from the Cook and Will County line to connect the Lincoln Highway and Route 51 on Wolf Road.

I am enclosing you herewith, map which shows the gap on Wolf Road. We will appreciate it very much if you will be kind enough to favor us with an early reply.

Yours truly,

Mokena Development and Hard Road Improvement Association.

L. G. Bruder, Chairman.

FRANKFORT

Miss Marian Dakin who has been enjoying her vacation during the past week at the home of Mr. and Mrs. John McEwan has returned to her home in Elgin.

Mr. and Mrs. Henry Dammann and daughters Ethel and Bernice accompanied by Mr. and Mrs. Louis Dammann of Joliet motored to Springfield to see the Capitol and the surrounding country. They left Wednesday morning returning home Saturday morning. They enjoyed the trip very much.

Eva Jean Pfaff and Lois Baumgartner of the Frankfort 4-H club were the winners of the judging team of District 1 which was held in Geneva, Thursday, August 2nd. This district includes 15 counties. They will go to Springfield August 20 accompanied by their leader Mrs. George Andrews. They are given \$35 towards their expenses. The winning team will get gold medals and \$50 each. Here's hoping our girls are the winners.

Several of the Frankfort people attended the Aurora Fair the past week.

Marie Scheer and Phyllis Baumgartner of the Frankfort 4-H club will give their demonstrations on the "Removal of Stains", Wednesday, August 15, at the Aurora fair. They will compete with other inexperienced teams. We wish these girls success.

A crowd of Frankfort folks attended the Brotherhood Picnic of the St. John Evangelical church on Sunday which was held at Cappel's Grove at Mokena.

The Girls' Volley Ball Team of the St. Peter's Evangelical church of which Lola Harnack is captain, were the winners of the game played with Mannattan Thursday night. They will play Wilton Center Tuesday night at Wilton Center.

Mr. and Mrs. Scofield and family have recently moved into the house owned by Geo. Haass. This house was recently vacated by Mr. and Mrs. Woeltje and family who have moved to Joliet.

Mr. and Mrs. Reginald Krohn and family of Joliet were the week end guests of Mr. and Mrs. Chas. Fralich. They motored to Cedar Lake Sunday afternoon.

Mr. and Mrs. August Schroeder and Mr. and Mrs. Henry Dammann motored to the Kankakee river on Sunday morning.

The last meeting of the Frankfort 4-H Club was held in the Frankfort public school, August 9. It was decided that Thursday, Aug. 23 would be Achievement Day.

Mrs. Christina Sangmesiter expects to leave soon for a trip thru Wisconsin.

The Ladies Aid Society of the M. E. church will give a bakery sale at Sippel's store Saturday, Aug. 18 at 2 o'clock. Everybody cordially invited.

August Hossbach aged 70 years, died at his home in Monee Monday evening, August 6. Mr. Hossbach was a retired farmer of Green Garden. He moved to Monee several years ago. He had been ailing for some time with gall stones. He leaves to mourn him his widow, five sons, John of Joliet, Nick, Jerry and Henry of Frankfort; Fred of Green Garden; 2 daughters, Marie Galitz, Matteson; Clara Weise of Monee; 17 grandchildren. The funeral was held at the home in Monee at 1:30 and at 2 o'clock at the church, Rev. Gaabe officiating. Burial was in the Monee cemetery. A large number of Frankfort folks attended the funeral.

Rev. and Mrs. Gernold and family are enjoying their vacation. There were no services last Sunday and there will be no services next Sunday. They motored thru several states and will be gone two weeks.

Rev. and Mrs. Holdgraf of Manhattan visited here last Sunday at the H. Stellwagen and Herbert Lambrecht homes.

Mr. and Mrs. John Clark returned home Monday from down state where they attended a reunion at Newton, Ill.

Sylvia Pfaff who is clerking at the Harry Balchowsky store, is enjoying her vacation.

Born to Mr. and Mrs. David Balch of Chicago, a son, Saturday, August 11. Mr. Balch was formerly of Frankfort and Mrs. Balch was formerly Ruth Seeman of Joliet.

Mrs. Chas. Balch of Los Angeles, Cal., is visiting in Chicago and will also spend sometime here later.

Mr. and Mrs. Harry Balchowsky entertained thirty relatives and friends Sunday in honor of their 20th wedding anniversary. Mrs. C. Balch of California was the guest of honor. She arrived a few days previous.
